TO: HAZARDOUS WASTE GENERATORS

FROM: MARK HALL *Mark C Hall*
HAZARDOUS MATERIALS SECTION SUPERVISOR

SUBJECT: ANNUAL SMALL QUANTITY HAZARDOUS WASTE GENERATOR REPORT FOR CALENDAR YEAR 2015

The Administrative Rules of Montana (ARM) require large and small quantity hazardous waste generators file an annual report by March 1 for the previous calendar year's activities (i.e. calendar year 2015 report is due no later than March 1, 2016).

Enclosed are the forms and instructions for completing your annual hazardous waste report for calendar year 2015. Complete all sections that relate to your hazardous waste activities. Make any changes or additions to the forms in the shaded areas. These forms, in Word and Adobe (PDF) format, are also located on the Department of Environmental Quality (DEQ), Hazardous Waste Program's website at:

<http://deq.mt.gov/hazwaste/hazformsreport.mcp>

New Instruction – added new Column A to report. If the waste stream being reported is a remediation waste stream (hazardous waste, debris, and media, including ground water, surface water, soils, and sediments that are managed for implementing cleanup or as a result of final closure of the entire facility) then check the box in this column, as these wastes have a different fee assessment.

If you wish to change your registered status, please state the new status and why in the Comments section on Part One.

If you opt for electronic submission, please send your completed report in **Word** format to DEQ.HazWaste@mt.gov.

The report must be submitted to this office by March 1, 2016. **You may be subject to enforcement action if you do not file by that date.** Please mail or email the report to:

Waste and Underground Tank Management Bureau
